Cheers for Our Auxiliaries

Health System Auxiliaries raise money to benefit patients

They don't do it for the money.
They don't do it for
the recognition.

The Southeast Georgia Health System Auxiliaries tirelessly raise money for the Brunswick and Camden campuses purely to benefit the patients. And the volunteers do an amazing job of it, year after year.

Exceeding Goals

In 2016, the Auxiliaries' efforts included staffing both campus Gift Shops as well

as planning, organizing and executing 11 fundraisers. Those events included a uniform sale, Gift Shop trunk show, electronics sale and the popular \$5 jewelry and accessories sale. This year promises to be even busier. More than a dozen fundraisers are already scheduled, including a book fair, a purse sale and a Vidalia onion sale.

With all that activity, it's no wonder the Auxiliaries' fundraising goals continue to increase each year. In 2015, the Camden Campus Auxiliary donated \$25,000 to the Health System at the end of the year. That same year, the Brunswick Campus Auxiliary was thrilled to present a check for \$120,000 — 20 percent more than the fundraising goal. In December 2016, the Auxiliaries once again presented \$120,000 and \$25,000.

Funding stays in the respective communities and is used to directly affect patient care. Items purchased with donations in previous years include rehabilitation equipment, waiting room furniture, recliner treatment chairs, simulation manikins for staff training, telemetry equipment and artwork for the pediatric unit.

"Last year, the Brunswick donation helped fund our new sleep lab," says Kristin Doll, CAVS, director, Volunteer Services. "Our wonderful Auxiliary volunteers really enjoy seeing their efforts pay off for our patients. We can't say thank you enough for their dedication." •
