## PATIENT INSTRUCTIONS

### Exam Preparation:

Do not eat or Drink 4 hours before your exam. Patient must refrain from caffeine 24 hours before exam. An IV will be started in the patient. The patient will receive a radioactive tracer injection in the IV, and be scanned 30-60 minutes after the injection. The patient will then be taken to the cardiology department where the stress test will be performed. The patient will receive a chemical stress test using Lexiscan, and another radioactive tracer injection. The patient will have the opportunity to eat/drink after the stress test. A second image will be taken approximately one hour after the stress test. Patients should plan on 3-4 hours for the entire test.

If you have any questions, please call the Central Scheduling Department  
Toll Free 1-855-466-1111 (if local, Brunswick 912-466-1240 or Camden 912-576-6190)
