2000 Dan Proctor Drive, St Marys, GA 31558
Come to the main hospital entrance. Upon arrival please turn right at the guest services desk and check in at the admissions department. |

PATIENT INSTRUCTIONS

Exam Preparation:

Go about normal activities and take any prescribed medications, as ordered by your physician. On the day of your exam, avoid wearing clothes that have metal buckles, buttons or zippers. Please bring your insurance information with you and any previous x-rays or imaging studies of the area to be examined.

1. Please arrive, at least 30 minutes, prior to your appointment time, for exam registration.

2. Because the MRI unit uses a powerful magnet, we need to insure your safety by making sure there is no metal in or on your body before the start of the scan.
3. If you have a cardiac pacemaker or an implanted cardiac defibrillator, you cannot have a MRI exam, as the magnetic field, of the unit, can affect the function of these devices.
4. On the day of the exam, do not wear any metal on your body. This includes jewelry, watches, hairpins, barrettes, etc. You will be asked to remove your glasses, hearing aids, non-permanent dentures or other metal dental appliances such as retainers.
5. Please inform the MRI technologist if you have ever had a gunshot wound, shrapnel fragments in your body, metal fragments in your eye or permanent make-up, specifically tattooed eyeliner.
6. Prior to the exam, inform the technologist if you have any implants, prosthetic devices or physical conditions listed below:
 - * Metal implants, of any kind, such as pins, screws or clips
 - * Artificial heart valves
 - * Artificial limbs
 - * Cochlear, otologic (ear) implants
 - * Brain aneurysm clips
 - * Cardiac stents
 - * Transdermal (through the skin) medication patches
 - * Stimulators or implanted drug infusion pumps
 - * Harrington rods or prosthesis
 - * Any metal in or on your body from items such as tattooed eyeliner or body piercings
 - * Intrauterine device (IUD) or diaphragm
 - * If you are or might be pregnant or if you are breastfeeding
 - * If you taking any medications, including non-prescription and/or supplements
 - * If you are allergic to contrast media (x-ray dye)
7. Due to the strong magnetic field of the MRI unit, you will be asked to remove the following items, before you enter the exam room:
Metal objects, credit cards, coins, keys, hearing aids, safety pins, pagers, cell phones, watches, jewelry, hair (bobby) pins, barrettes, belts with metal buckles, brassieres with under-wire or metal snaps, gowns or clothes with metal snaps or buttons, all magnetic body piercings.

WE WILL PLACE A REMINDER CALL PRIOR TO YOUR SCHEDULED APPOINTMENT.

If you have any questions, please call the Central Scheduling Department
