Two Hospitals to Serve You
Southeast Georgia Health System is a not-for-profit community health system comprised of two acute care hospitals offering a full spectrum of health care services, including maternity and newborn care, 24-hour emergency care, cath lab, intensive care, medical and surgical services, orthopaedic and joint replacement surgeries, radiology, sports medicine, and radiation and medical oncology services.

The Health System also has multiple specialty centers, including bariatric, breast imaging, cancer care, cardiopulmonary rehabilitation, endocrinology and diabetes, gastroenterology and endoscopy, infectious diseases, joint replacement, outpatient rehabilitation (aquatic, physical, occupational and speech therapy), palliative care, sleep management, vein and wound care.

BRUNSWICK CAMPUS
Since 1888, the Brunswick Campus has fulfilled the organization’s mission of providing safe, quality, accessible and cost-effective care to meet the needs of those in our communities. From a 40-bed hospital, the campus has grown to a 300-bed facility known for innovative services that one would only expect to find in a major metropolitan medical center.

Recognitions include:
2015: Ranked high performing in “Hip Replacements” by U.S. News & World Report
2018: Ranked as a “Top Georgia Hospital” in the large-sized category by Georgia Trend magazine
2019: American Orthopaedic Association’s® Own the Bone Program Star Performer
2019: Designated Baby-Friendly hospital by Baby-Friendly USA, Inc.
2019: Received LifeLink® of Georgia Workplace Partnership for Life Platinum Award

CAMDEN CAMPUS
In 2009, the Health System proudly completed an extensive expansion and renovation of the Camden Campus. The most ambitious medical construction project ever undertaken in Camden County, the Health System funded the entire project with no taxpayer funds—all to better serve the health care needs of the patients in the Camden community.

Recognitions include:
2013: Georgia Alliance of Community Hospitals named the Camden Campus their “Small Hospital of the Year”
2019: Georgia Trend magazine named it one of Georgia’s “Top Small Hospitals”
2019: Named “Best Medical Service” by Tribune & Georgian Best of Camden Awards

A Healthy Economic Impact
According to the Georgia Hospital Association, the state’s largest hospital trade association, Southeast Georgia Health System generated more than $639,491,000 in revenue for the local and state economy.*

The report shows that the Health System has a positive economic impact, even during difficult economic times.

*The data comes from the Department of Community Health, Division of Health Planning, Hospital Financial Survey for 2017. The 2017 data is the latest data that is currently available from the Georgia Department of Community Health.
An affiliation with Wolfson Children's Hospital in 2012, one of the nation's leading children's hospitals, makes it possible for the Health System to offer an array of pediatric specialty services not previously available to residents of the Southeast Georgia coast and surrounding areas, including cardiology and hematology/oncology services, and rehabilitation therapies for children with neurologic and orthopaedic conditions.

Southeast Georgia Health System Foundation
Established in 1994, the Southeast Georgia Health System Foundation is the fundraising and resource development organization for Southeast Georgia Health System. As a not-for-profit, non-tax-supported community health system, 100% of charitable gifts received by the Foundation are earmarked for patient care, equipment, enhancements and services.

Innovative Technology

**CyberKnife® M6 Robotic Radiosurgery System:** the Brunswick Campus is the first cancer center in Georgia to offer the new CyberKnife M6 Series for the treatment of both cancerous and non-cancerous tumors.

**da Vinci® Surgical System:** a leading edge technology that combines highly magnified 3D imaging with miniaturized surgical tools, da Vinci allows surgeons to perform complex procedures through one to two centimeter incisions with greater precision, flexibility and control.

**MAKOplasty®:** a surgeon-interactive robotic system, MAKOplasty offers quicker recoveries and better surgical results for patients with joint degeneration of the hip and knee.

Cancer Care Centers
At our Cancer Care Centers, you’ll find all of the resources and specialists needed to effectively detect and treat cancer. The Cancer Care Center on the Brunswick Campus is accredited by the American College of Surgeons Commission on Cancer, and is the first location in Georgia to offer the next-generation CyberKnife® M6 with multi-leaf collimation (MLC) technology, a faster, more effective radiosurgery treatment option for cancer, including prostate, lung, breast, brain, pancreatic and liver, and non-cancerous tumors.

Nunnally House
Nunnally House offers a warm, home-like lodging facility for the Health System’s cancer patients and families of critical care patients who must travel from outside Glynn County, medical students and on-call team members. Located adjacent to the Brunswick Campus, Nunnally House was funded by a generous gift from Hugh Nunnally and his family; inspired by the concept, Mike and Lucia Gumaer generously offered enhanced exterior landscaping, including gardens and a tranquil outdoor patio area.

Master Renovation & Expansion Project
In 2018, the Health System began a $140 million master renovation and expansion project of its Brunswick Campus to help ensure it can continue to meet health care needs as the communities it serves grow and patient volumes increase. This project includes more than 74,000 square feet of new construction and 141,000 square feet of renovated space — all on its existing footprint. Learn more about this project and sign up to receive project news and notifications at sghs.org/renovation.

Ribbon of Hope
Located in the Medical Plaza on the Brunswick Campus, the Ribbon of Hope health care specialty boutique offers a variety of products, apparel and gift items for post-surgical and cancer patients.
